

TORO-FLEX

DUAL ACTION POLISHER WITH SOFT TOOL

Tool storage area with lifetime and selection indicators

Barcode reader with ergonomic support

Easy to operate control system

Lens washing compartment with water jet and compressed air gun

TORO-FLEX

A manually operated lens polisher, designed to polish two lenses simultaneously. This technology considerably reduces the costs of production, eliminating activities related to the handling and storage of tools and materials. Additionally flexible polishing tools bring versatility and automation to the process. Toro-FLEX lens polisher can process surfaces of all geometries, and lenses of all organic materials.

FEATURES + BENEFITS

- Robust dual lens polisher, designed for easy operation.
- Polishes concave, spherical, toric, free-form lens surfaces, and all organic materials.
- Tangential kinematics during the polishing process ensuring short polishing times and optimized lens quality.
- Long-lasting flexible polishing tools ensure high lens accuracy and an attractive cost/lens ratio.
- Seven different types of flexible tools cover the entire working range of Rx lenses.
- Lens washing basin, water spray and air gun prevent polishing slurry from drying on lenses.
- Integrated tool storage area with LED lights that show wear and selection, ensuring suitable choice for high process stability.
- The perfect complement to Satisloh's VFT-macro generators.

TECHNICAL SPECIFICATIONS

Productivity	Up to 50 lenses / hour
Working range	Base curve concave: 0-14 dpt. Cylinder: 0-6 dpt. Lens diameter: 48-85 mm
Lens Material	All organic materials
Dimensions (wxdxh)	695 x 1344 x 1843 mm 27 x 53 x 73 in.
Weight	327 kg/ 720 lb
